Cascade

Land 1 Air 1 Water 1
Structure 0 Energy Obstacle

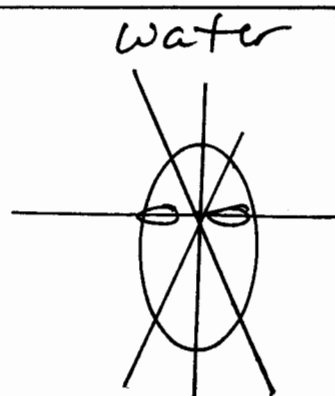

Life: Vegetation: low
life: Human: low
life: other: low

Land completely destroyed
by masses of water.
Very deep and high over
land area
Afterward complete devastation

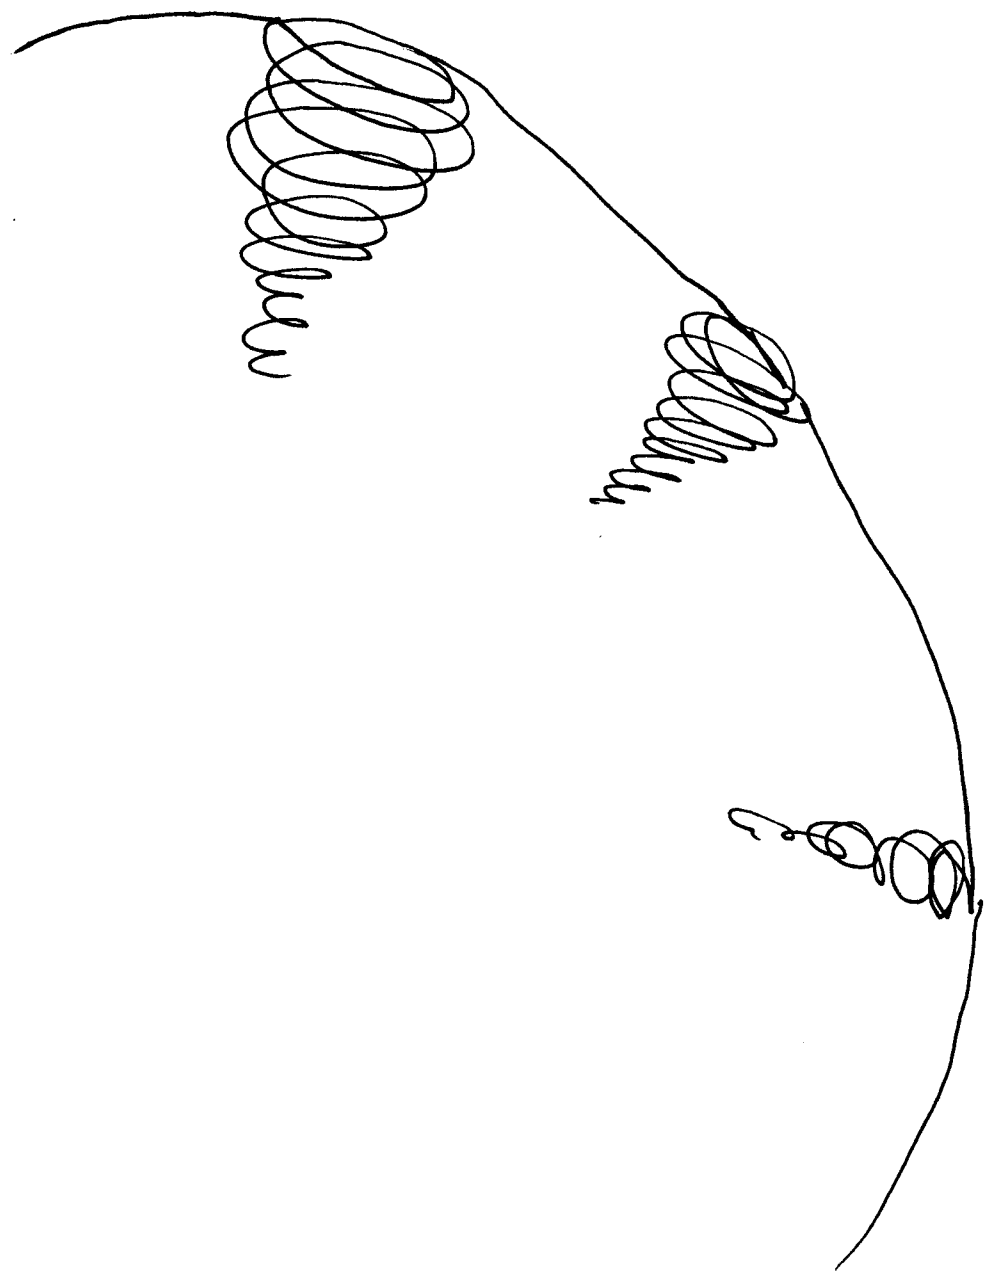

Large heavenly bodies
(asteroids?) Massive -
hitting earth causing
destruction
In a cluster

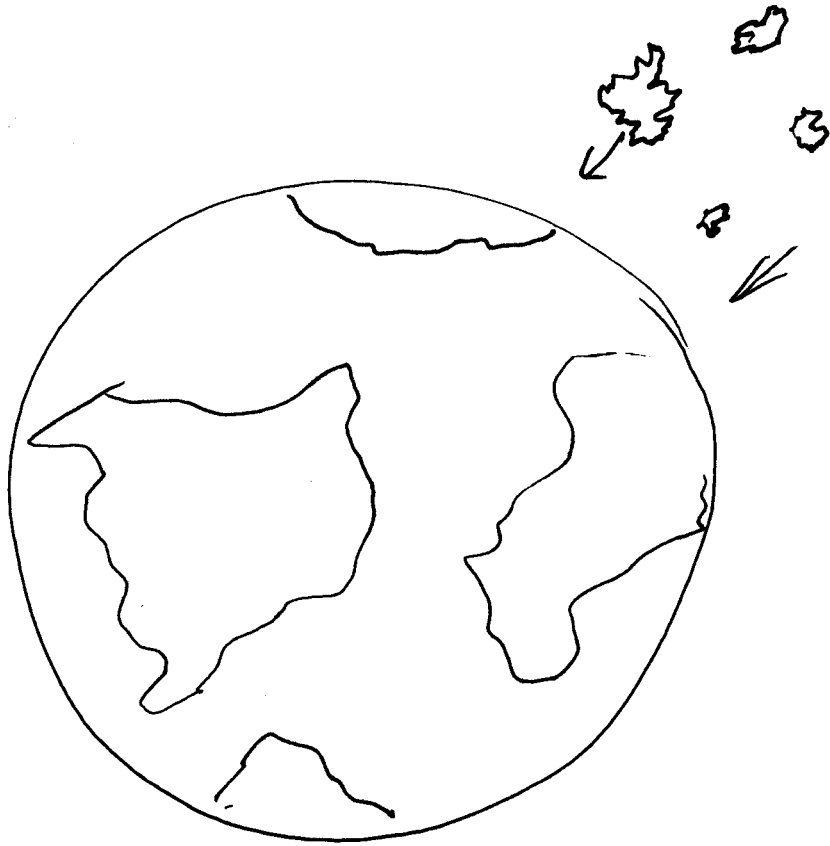

Destructive
massive whirlpools
dragging everything in their
path Rock; trees, building

water

Massive, swirling cauldrons
of water
sucking everything into the
earth

Air

Land

An island or large inhabited land area being inundated by ocean water.

Slab Driftization

A series of impacts from asteroids or heavenly objects that cause massive destruction on earth.

Sides of mountains falling into ocean causing tsunamis that inundate land masses.

Large vortexes formed by huge quantities of water that destroy all surrounding land.

End of session
