

RV Climate Study Viewer Cover Page

Directions: Please include this sheet as the first page of your session. After all remote viewing is completed for this project, you will be sent the target definition for this remote-viewing session via email. A time window will be established to allow you to compare your remote-viewing data for this session with the target before the passwords to decrypt your session data will be made available to the general public. Comparing each page of your remote-viewing data to the target is called “closing the session,” and it is important that you utilize the allocated time window to do this. By participating in this study, you are agreeing to allow the public to download, save, and eventually examine your remote-viewing session. You are also allowing research to be conducted using your remote-viewing data. Thanks for participating in this important study.
